

# Zhao Chen

---

## Objective

- To obtain an undergraduate internship opportunity in the field of software engineering and data science.

## Skills & Abilities

- Accurately performed tasks based on Python, Java, C, and C++
- Had experienced in developing a website with multiple purposes
- Mastered both English and Chinese

## Experience

**Website Developer**, Restaurant • July 2015 – August 2015

- Developed a platform that permitted customers to order food via internet

**Camp Hill Machine Learning & AI Group** ■ **September 2017 - December 2017**

- Cleaning data for house pricing project

**Hackathon Fall 2017**

- Created an app called “Survive the Drive” to show a driver what the weather condition would be like in front of him along his traveling route.

## Education

The Pennsylvania State University–Old Main, State College, 16801

- Bachelor (BS) of Computer Science and Computational Statistics
- GPA:3.95/4.00
- Introduction to Programming Techniques, Intermediate Programming, Object Oriented with Web Application, System Programming, Linear Algebra, Discrete Mathematics, Probability Theory, and Multivariable Calculus.
- Expected Graduation Date: May 2021

## Organization

- Camp Hill Machine Learning & Artificial Intelligence Group.
- Penn State Technology Team.

## Award

- Awarded second place in Hackathon for the Accuweather challenge.
- Two times Penn State dean list.
